JAMES ANDREI N. REVILLA

FULL-STACK SOFTWARE DEVELOPER

Malabon City, Philippines | +63 994 151 7907 | revillajamesandrei4@gmail.com
Portfolio: jamesrev.vercel.app | GitHub: github.com/Tsukimitisu
LinkedIn: linkedin.com/in/experts-james-andrei-revilla-9a3567359/

PROFESSIONAL SUMMARY

Full-stack software developer with enterprise internship experience at Xurpas Enterprise Inc. and hands-on development of a deployed commerce platform, automation tools, and Expo mobile applications. Builds React/TypeScript interfaces, Node.js REST APIs, and PostgreSQL workflows with attention to testing, access control, and maintainability.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, PHP, Java, HTML, CSS

Frontend & mobile: React, Vite, React Native, Expo, Bootstrap, responsive development

Backend & data: Node.js, Express, REST APIs, Frappe/ERPNext, PostgreSQL, Supabase, MySQL, MariaDB, Laravel

Tools & practices: Git, Docker, Vercel, Render, Linux, automated/API/concurrency testing, browser UAT, migrations

PROFESSIONAL EXPERIENCE

Software Developer Intern | Xurpas Enterprise Inc. | June 8 - September 11, 2026

PNOC REAMS - Property Valuation | Team-based enterprise development

- Enhanced Property Valuation history, effective-date validation, appraisers, document links, permissions, and audit trails within the PNOC REAMS team.
- Built property comparisons, dashboards, filters, and Excel/PDF reports for current and historical valuation analysis.
- Implemented notifications for leases, payment due dates, overdue items, property taxes, new valuations, and uploaded documents.
- Investigated defects, supported regression tests and browser UAT, and refined workflows with developers and business analysts.

SELECTED PROJECTS

10th West Moto - Commerce, Inventory & POS

React, Node.js, Express, PostgreSQL, Supabase

- Built and deployed storefront, inventory, order, and staff/POS workflows on Vercel and Render with a custom domain: 10thwestmotoparts.com.
- Implemented offline inventory allocation, device approval, role controls, migrations, audit records, and concurrency/idempotency tests.

JobPilot - Job Discovery & Application Automation

React, TypeScript, Supabase, Edge Functions, Cron

- Built a mobile-accessible PWA with Gmail imports, matching, duplicate prevention, private resume storage, and owner-reviewed application sending.
- Implemented Edge Functions and scheduled discovery with owner-only access and worker coordination; latest discovery extensions are locally verified.

Crumbly - Mobile Food Journal & Story Creator

React Native, Expo, TypeScript, SQLite

- Developed journaling, ratings, collections, photo editing, layered PNG story exports, transparent sticker handling, and photo-inclusive backup/restore.

EDUCATION & TRAINING

BS Information Technology | Datamex College of Saint Adeline, Inc. | Expected April 2027

Programming (Java) NC III - Certificate of Training, Experts Technology (2025)

AppBuildersPH Hackathon 2026 - Participation, App Builders PH (October 9-10, 2026)
